“Technology like art is a soaring exercise of the human imagination.”

The world has seen some astounding technological changes. Technology has advanced in the last decade by leaps and bounds. Every industry and sector has been revolutionized by the evolution of technology. To stay at pace with the world, one must stay up to date.

Technocrats, the IT club of Shaheed Rajpal DAV Public School, is hosting its eighth edition of the annual tech fest, WARTEX#8.0 consisting of several exacting events in the field of technology.

In an effort to serve as a platform for a massive technological extravaganza, this year's edition has a variety of more fascinating and challenging events.

After a series of successful events in the past few years, We cordially invite the technical enthusiasts to explore this technical array and be an integral part of this event.

Looking forward to your zealous responses.

Regards,
Team Technocrats

A cinematic illustration of a person in a white, futuristic suit standing on a dark, debris-strewn rooftop. The person is looking up at a bright light source, possibly a window or a distant light, which creates a strong lens flare and illuminates the scene. The background shows a dark, rainy cityscape with buildings and a large, stylized, light-colored leaf or plant motif overlaid on the image. The overall mood is mysterious and dramatic.
